

# The NFT -Centric Metaverse Incubator

[bytenext.io](https://bytenext.io)

ByteNext is a **blockchain** incubation hub that aims to make the Metaverse Economy a reality.

---

We believe it's a network of NFT projects, connected through an ecosystem that provides **Openness, Sustainability, Immersion.**

---

To do so, we have established an ecosystem consisting of **NFT marketplace, DEX, Launchpad** that supports both **INO** and futuristic features like Extended Reality **Metaverse** and a **Yield Guild.**

# Business Challenges

**Data & Security

# ByteNext Ecosystem

# ByteNext DEX & Launchpad

## Launchpad

ByteNext Launchpad was expected to launch in Q4 2021. It was built to promote every tokenized NFT in the ecosystem, as well as NFT projects.

Digital ownership

## DEX

Aside from competitive trading fees paid in BNU, our INO and even tokenized NFTs shall be on ByteNext DEX first, providing comfort and security for the economic users.

# Yield Guild

## Future of community

### A developing feature

For many, Metaverse could become the platform to interact and form meaningful relationships.

However, for the Metaverse to become fully functional, a tool that provides smooth communication, easy asset raising and lending are required.

# ByteNext Technology

## Blockchain Solutions

### Multichain Solution

As a multichain platform, flexible and secure swap between chains is crucial for the ecosystem. Currently, ByteNext Bridge supports BSC and Flow.

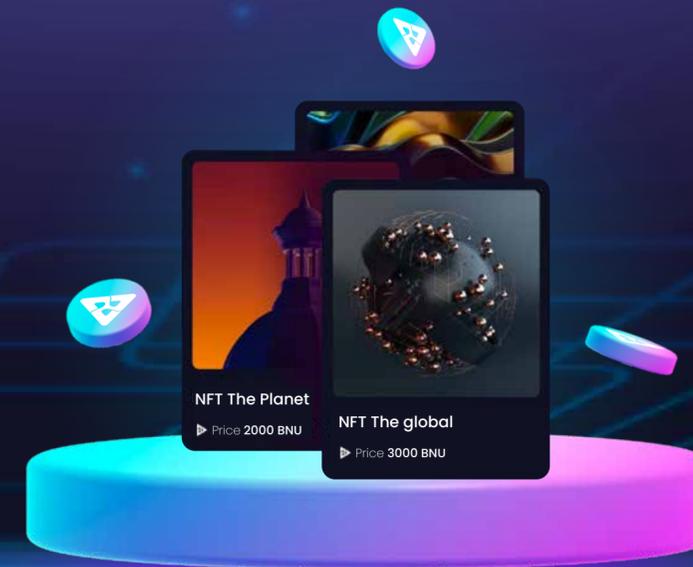

### VR/AR Solution

# Marketing Strategies

## Local Knowledge

We partner with marketing experts in dynamic markets like Thailand, Malaysia and of course, Vietnam.

## Curated -Audited NFTs

We work with prestigious curators and auctioneers like CHON to secure credibility and accountability for our NFTs.

## Mass Awareness

Good relations with both crypto and mainstream magazines allow us to have more share of voice in the public.

## Social Influences

We get strong community leaders – both local and global to join ByteNext to bolster the movement.

## One-stop policy

We provide both advisory, markets, promotion tools and utilities for any project we have incubated.

# Welcome to ByteNext Metaverse economy!

ByteNext believes in virtuous circles and greenlight for all, changing the way the economy works as we know. It's probably about time to stop worrying about what changes it may bring, and start thinking what new values it may create in the hopefully near future.
